

Mozilla Firefox

Mozilla Firefox has a pop-up blocker which is activated by default. To allow access to the ABSOnline site you will need to add the site to the list of permitted sites in which pop-ups are allowed.

1. From the main menu at the top of the browser window, select 'Tools'

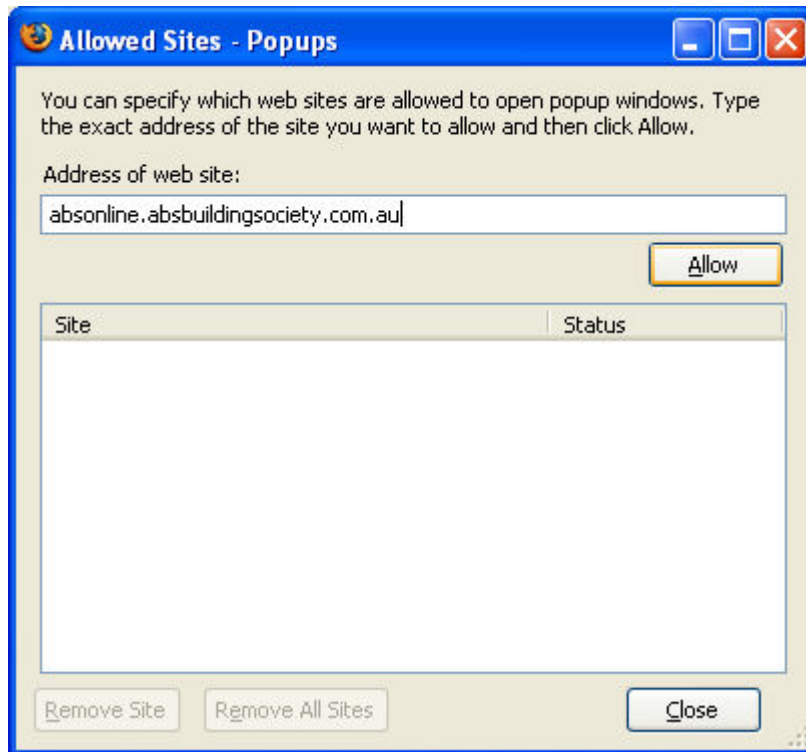

2. Then select 'Options'

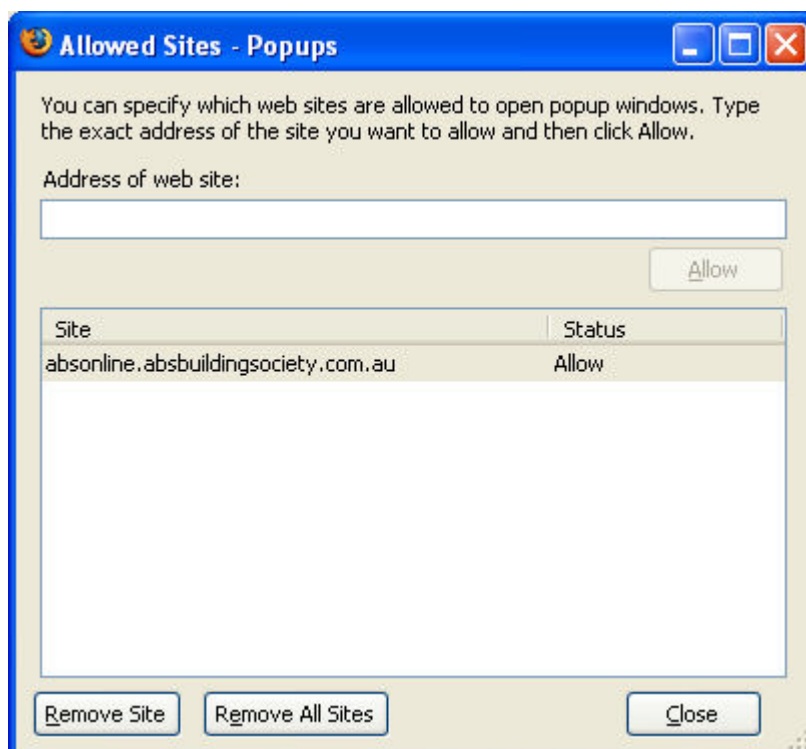

3. Select the icon 'Content' and click on the button 'Exceptions' immediately to the right of the first option listed, 'Block pop-up windows'.

4. In the top section, type in the address for ABSOnline as shown below.

5. Finally click 'Allow' to add the ABSONline site to your list of trusted sites, then 'Close' and 'OK' to return to your browser.

You should now be able to access the login page for ABSONline.
